

SUVEN Life Sciences Ltd

News Release

HYDERABAD, INDIA (July 5th, 2007)

Suven Life Sciences presenting Pre-clinical data of their NCE's SUVN-502 and SUVN-507 at International Brain Research Organization (IBRO) 2007 World Congress of Neuroscience to be held at Melbourne, Australia.

Several data presentations from Suven's portfolio of investigational neuroscience compounds will be presented at International Brain Research Organisation (IBRO) 2007 World Congress of Neuroscience to be held at Melbourne, Australia during July 12-17, 2007.

Scientists from Suven Discovery Research will be presenting new data for 4 promising areas of neuroscience viz. Alzheimer's, Schizophrenia, Parkinson and Obesity diseases. These areas present significant unmet medical need for which current treatment options are insufficient. Suven has a number of programs in each of these areas, focusing on novel approaches that may lead to the development of new therapies for patients.

Suven is presenting the data on their leading preclinical candidates SUVN-502 and SUVN-507 at IBRO 2007 world congress of Neuroscience .

Suven is committed to neuroscience research and for development of new treatments for neurological disorders. Suven's discovery research focuses on Central Nervous System (CNS) disorders through novel mechanisms using small-molecule medicinal chemistry approaches. Suven's CNS drug discovery scientists at Hyderabad, India are pursuing innovative ways to develop treatments for a variety of CNS disorders like Alzheimer's, Schizophrenia, Depression, Cognitive disorders and Neurodegeneration.

Suven Life Sciences, a Hyderabad based Life Sciences Company, pioneer in Contract Research And Manufacturing Services (CRAMS) since 1995 in its endeavor to become collaborative research partner (CRP) for global life science companies has embarked on new business model "Drug Discovery and Development Support Services" (DDDSS) with the onset of Intellectual Property Regime in India since January 2005.

A focused provider of DDDSS for development of New Chemical Entities to life sciences companies, Suven's commitment to protection of intellectual property, maximization of return on R&D investments for collaborative research partners, ability to offer full spectrum of services from discovery to market launch and provide technologies and expertise in different therapeutic areas. Suven has R&D strength of more than 190 professionals with the state of the art infrastructure for Drug Discovery and development activities with 30 clinical research professionals and the front-end project management services from New Jersey, USA.
