   
   **A. Shinde, et al.,**

2. Conformationally restricted tryptamine sulfonamides as novel and selective 5-HT₆ receptor antagonists.
   
   **J. Konda, et al.,**

3. Pummerer reaction as the key step in the stereoselective synthesis of D-ribo-(2S,3S,4R)-Phytosphingosine.
   
   **M. Rasheed, et al.,**

---

**International Conference on Alzheimer's Disease (ICAD)**

July 11 - 16, 2009, Vienna, Austria

   
   **R. Nirogi, et al.,**

   
   **R. Nirogi, et al.,**

   
   **R. Nirogi, et al.,**
7. SUVN-502: A potent, selective, brain penetrant and orally active 5-HT\textsubscript{6} receptor antagonist.

   R. Nirogi, et al.,

   \textbf{American Chemical Society (ACS)}

   \textbf{August 16 - 20, 2009, Washington, DC, USA}

8. Tetrahydrocarbazole derivatives as novel and selective 5-HT\textsubscript{6} receptor ligands.

   J. Konda, et al.,

9. Novel piperazine analogs as potent and selective 5-HT\textsubscript{6} receptor ligands.

   R. Badange, et al.,

   A. Rasheed, et al.,

   \textbf{Society For Neuroscience (SFN)}

   \textbf{October 17-21, 2009, Chicago, USA}

11. DRL-72s: Scopolamine induced deficits and its reversal by choline esterase inhibitors.

   P. Jayarajan, et. al.

12. Brain distribution of methyllycaconitine: A potent and selective neuronal nicotinic acetylcholine receptor antagonist.

   G. Bhyrapuneni, et. al.,
13. SUVN-911: A potent and selective nicotinic acetylcholine receptor antagonist in animal models of depressive disorders.

R. Nirogi, et. al.,

I. Ahmad, et. al.,

15. Comparison of different class of H3 receptor antagonists to enhance cortical histamine levels.

V. Kandikere, et. al.,

R. Abraham, et. al.,

17. CYP2D6 and CYP3A4 inhibitory potential of marketed CNS drugs from LC-MS/MS and fluorescent based assays.

V. Kandikere, et. al.,

G. Bhyrapuneni, et. al.,

19. Pharmacokinetics of Sarpogrelate following single intravenous or oral administration in rats.

R. Nirogi, et. al.,

Y. Gupta, et. al.,

21. Pharmacokinetics of Sarpogrelate following single intravenous or oral administration in rats.

N. Muddana, et. al.,
